

1. Product ID

TQ-PS-DR

2. Product Name (Website)

Teqvion 12V LED Driver Power Supply for LED Lights

3. Product Name (Internal)

LED Driver

4. Product Category

Power Supplies

5. Product Overview

Teqvion LED Drivers are compact and efficient AC/DC power adapters designed to deliver stable 12V DC output for LED lighting applications. Built for reliability and long-term use, these drivers ensure consistent illumination performance while protecting connected LED systems from voltage fluctuations.

The driver features a lightweight plastic enclosure, easy installation terminals, and is ideal for indoor lighting solutions such as LED strips, panels, and decorative lighting systems.

6. Technical Specifications

Parameter	Value
Input Voltage	100–265V AC
Output Voltage	12V DC
Output Current	1A
Output Power	12 W
Frequency	50–60 Hz

7. Key Features

- Stable 12V DC regulated output
- Compact and lightweight design
- Easy screw terminal connections
- Energy-efficient performance
- Suitable for continuous operation
- Durable plastic enclosure
- Safe and reliable for indoor LED applications
- CE compliant design

8. Applications

- LED Strip Lighting
- LED Panel Lights
- Decorative Lighting
- Cabinet Lighting
- Signage Lighting
- Indoor Residential Lighting
- Commercial Lighting Installations
- Low-power LED systems

9. Product Variants

(To be defined)

10. Packaging Details

(To be defined – box type, quantity per carton, etc.)

11. Certifications

(To be defined – BIS / CE / RoHS etc.)
