

1. Product ID

TQ-PA-24

2. Product Name (Website)

Teqvion 24V DC Power Adapter (1A / 2A / 5A) for RO Water Purifier Systems

3. Product Name (Internal)

RO Adapter

4. Product Category

Power Adapters

5. Product Overview

Teqvion 24V DC Power Adapters provide stable and reliable power for RO water purifier systems and other compatible electronic devices. Designed for continuous operation, these adapters ensure efficient power delivery and safe performance. Built with high-quality electronic components, they offer long service life and protection against electrical faults.

6. Technical Specifications

Parameter	Value
Input Voltage	100-240V AC
Output Voltage	24V DC
Current	1A / 2A / 5A
Frequency	50-60Hz
Cable Length	~1.2 m

7. Key Features

- Low ripple and interference
- High-quality SMD Components
- Universal input voltage
- Stabilized output
- Short circuit and overload protection
- High efficiency and low energy consumption
- Durable and compact adapter design

8. Applications

- RO Water Purifier Systems
- Domestic Water Filtration Units
- Water Dispenser Systems
- Industrial RO Systems

- Compatible 24V Electronic Devices

9. Product Variants

1A / 2A / 5A

10. Packaging Details

(To be defined – box type, quantity per carton, etc.)

11. Certifications

(To be defined – BIS / CE / RoHS etc.)
